🌐 Akshata R.O

Engineering student passionate about problem solving and practical Innovation, seeking opportunities to apply skills and on industry experience.

Education

Bachelors in Engineering , Electronics And Communication CGPA: 9.18

KLS Vishwanathrao Deshpande Institute of Technology.

Pre-University Education - Percentage: 83%

Dr. R.B. Patil Mahesh PU college.

Secondary Education - Percentage: 97.9%

Vidyashree Education Trust Kuknoor.

Skills

Programming Language: Python (Basics) | C++(Currently learning)

Embedded System: Arduino , Sensors , Relay Modules

Concepts: Digital electronics , Digital communication , Digital Singal Processing(basics)

Tools & Software: Jupyter Notebook | GitHub(Currently learning)

Soft Skills: Analytical Thinking | Problem solving | Team Collaboration | Coordination | Communication

Projects

• Automatic Irrigation System(Arduino based)

Designed Arduino-based irrigation system using soil moisture sensing .Automated water pump activation reducing manual intervention .Implemented sensor-based decision logic for efficient water usage.

• Bilingual Translator

A bilingual translator website allows users to translate text between two languages instantly using language processing tools or APIs. It provides accurate translations, improves communication across languages, and offers a simple interface for easy and quick language conversion.

Extracurricular

Active member of college Volley Ball team| Volunteer at UMANG fest | Pleiades technical event participant | Cultural event active participant.

Interests

Dancing | Music| Sports.
